Kyung Hee Law School aims to train students as competent lawyers furnished with the professional knowledge and problem-solving skills with which they are able to be in the vanguard of globalization, ultimately making a leading contribution to the prosperity of the nation and communities through innovative and progressive activities.

- To Produce Lawyers Equipped with Well-Rounded Value and Professional Ethics. By letting creative and enterprising features of scholarship be added on the basis of a great store of culture required for professionals, in-depth tenderness towards and understanding of human and society and sense of value oriented to freedom, equality and justice, the School purposes to train lawyers who have sound perspectives on value and ethics which voluntarily serve Korean people, keeping pace with the times.
- To Cultivate Lawyers of Having both the Professional Legal Knowledge and the Ability to Solve Legal Problems. The primary educational goal of the School is to train students as lawyers who have an in-depth knowledge of general and special circumstances of everyday life in which conflicts are caused among members involved and the ability to resolve the conflicts.
- To Foster Legal Professionals with Global Mind and Open Attitude. Also, the School wants to educate and train specialists in international legal affairs equipped with a comprehensive understanding of important theoretical tools and current legal issues, and good capability of playing active roles in the international community.
- To Train Future Community Leaders. The School aims to foster community leaders, not simple legal technocrats, of capacity to serve the development and prosperity of the nation, the society, and all mankind with sound views on profession and ethics.

## Programs Offered

J.D. & S.J.D. Programs

## Academic Activities and Future Career

The specialization field of the School is global business law. The reason why the School decided to specialize in global business law is that its concentration on the law will increase its competitiveness both national and international since there is strong needs to keep abreast with the times of which main characteristic is globalization.
