Food Service Management

- **Food Service Management at Kyung Hee**
  - The mission of the Department of Food Service Management is to prepare students for professional careers in hospitality management by providing theory-based educational programs. The curriculum combines courses in food and nutrition, business administration, restaurant management, and professional service industries to provide a strong base for professional success. Industry-experienced faculty members and outstanding facilities make the students successful.
  - Since rapid growth in the food service industry has created a demand for graduates from four-year food service and restaurant management programs, our graduates are qualified for management-level positions in full-service restaurants, contract and institutional dining operations, private clubs & resorts, convention services, and other food service-related fields.

- **Careers and Graduate Destinations**
  - Nuclear Power & Radiation Applications: For graduates from four-year food service and restaurant management programs, our graduates are qualified for management-level positions in full-service restaurants, contract and institutional dining operations, private clubs & resorts, convention services, and other food service-related fields.
  - Some of them also join the mass media, both domestic and international, governmental, semi-governmental, nongovernmental, and international organizations.
  - Others chosen careers in the business sector, including domestic and global businesses, are technical managers who will manage small businesses for radiation applications.
  - Graduates from business-related fields.

International Studies

- **International Studies at Kyung Hee**
  - Established in 2005, the College of International Studies at Kyung Hee University is a leader in this academic field in Korea and aims to become one of the premier College of international studies in the world. The College is the successor of the School of International and Area Studies and the Department of International Relations which had existed since 1960 before being transferred into the current school. By March 2010, the school took another bold step in development by transforming itself into the College of International Studies. The College of International Studies is proud of its distinguished faculty members, the reasons top 10 percent student body, many curriculum and extra-curriculum programs, and diverse financial aid and exchange student programs. The college curriculum is made up of four modules: International Relations, International Economics, Global Business, and East Asian Studies. All classes are conducted in English.
  - The college has been actively pursuing the internationalization of its programs and operations by building global partnerships, and by recruiting distinguished international faculty members, and excellent international students.

- **Careers and Graduate Destinations**
  - Students graduating from the College of International Studies and the School of Hospitality are in a great area of 200 opportunities. Many of the graduates from the College of International Studies have opportunities in the global service sector including domestic and global enterprises. They also pursue careers in the public sector in government, international governmental, semi-governmental, nongovernmental, and international organizations.
  - Some of them also join the mass media, both domestic and international, after graduation. They are also encouraged to continue their study to the graduate level both in foreign countries and Korean universities.

INTRODUCTION OF ENGLISH TRACK

Kyung Hee University has long been known for its strong tradition of research and teaching in higher education or research organizations such as universities and governmental and nongovernmental organizations, enterprises, and interest groups in every field of interest. In response to the growing demand for MICE and Convention professionals, the College of Hotel & Tourism Management at Kyung Hee University has been one of the first in Korea to develop a Department of Convention Management and to offer a full curriculum and four-year degree in Convention Management. Students graduating from the department are equipped for the challenges of this existing profession and ready to lead management roles in the international MICE industry.

CAREERS AND GRADUATE DESTINATIONS

Tourism, Meetings, Incentives, Conventions & Exhibitions (MICE) Industry is one of the fastest growing industries in the 21st century, and it is also recognized as a high-unbalanced and considerably efficient industry. The MICE industry is seen as a bright outlook for the future of the industry, more convention professionals will be needed and must be produced in academic and business fields. Graduates of our department can compete effectively with students who have obtained a general education, as well as those who graduated from general business schools. Performance as a convention major and willingness to prepare for a variety of career options will increase the attractiveness to employers and help eventual career placement. Graduates can find excellent well-paying positions in a variety of areas of the industry.
