## What is Nursing?

Nursing encompasses the autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well, and in all settings. Nursing includes the promotion of health, prevention of illness, and the care of the ill or disabled. The central goal of nursing is to reach a higher quality of nursing care that combines efficiency, effectiveness, and humanity. Advocacy, promotion of a safe environment, research, participation in shaping health policy and in patient and health systems management, and education are also key nursing roles.

## Nursing at Kyung Hee

The College of Nursing Science cultivates each nurse to be a qualified citizen and a person of creative problem-solving ability to perform various roles for holistic care (neo-renaissance nurse), based on the university motto of “Creation of a Civilized World,” contributing to health promotion and the construction of a welfare society for human beings. Especially, the college emphasizes the cultivation of creativity and autonomy for nurses in the practice, globalization, and national competitiveness, along with the acquisition of East-West Nursing knowledge and skill following the specialization of the college.

Specific goals in meeting the challenge are to cultivate a neo-renaissance nurse with the following qualities or abilities:

- Respect for human beings to provide holistic care
- Scientific knowledge and critical thinking
- Nursing professionalism and leadership
- Therapeutic communication and relationship
- Excellent nursing skills and practical competencies
- Requested ability in ubiquitous era
- New nursing leadership in welfare society
- International ability
- Ability that can apply Oriental nursing knowledge and skill on health promotion and rehabilitation.
- Professional lifelong learner

## Degree Requirements

To receive the Bachelor of Nursing in the Department of Nursing, a student must:

- complete a minimum of 140 credit units
- complete 83 credits of required courses
- complete 6 credits of electives courses

## Courses

### Year 1

Nursing & Religion 1, Nursing & Religion 2, Microbiology and Laboratory, Introduction of Nursing Science, Introduction to Oriental Nursing, Anatomy 1
